Transport Motor Vehicles - Civil Supplies Transport Unit - Working in the districts - Supply of tyres and tubes - Proposal for keeping reserve stock of tyres and tubes - Submitted.

The Board submits that the supply of tyres and tubes to the lorries belonging to this department is generally arranged by the Provincial Road Transport Officer by purchase from the tyre companies in the City. Sometimes the companies are unable to supply the required number of tyres and tubes in time resulting in the lorries being put off the road and consequently heavy loss to Government. The Board therefore considers that it would be desirable to purchase tyres and tubes of various sizes in advance and place them with the Provincial Road Transport Officer ~~im~~ so that the emergent demands of the Assistant Transport Officers in the Mufassal could be met easily. In G.O.No.1086 Food dated 30th November 1946 the Provincial Road Transport Officer has been authorised to incur at any one time an expenditure not exceeding Rs.500/- (Rupees five hundred only) per lorry for the purchase of spare parts such as tyres and tubes etc. for all the lorries without the prior sanction of the Board but this will not be sufficient as a particular tyre cannot be earmarked now for a particular vehicle and if the Provincial Road Transport Officer is to wait in the case of each vehicle until a new tyre is actually required there will be avoidable delay as the tyre companies apprehend that they may not get consignments of tyres for long periods and hence will not be able to hold reserves for all types. In the circumstances stated the Board requests the Government to sanction the purchase of the tyres and tubes noted below:--

Size of the tyre and tube	No. required	Cost of each Rs. a. p.	Total cost Rs. a. p.
150 x 16 tyre	15 tyres	360-12- 0	5,411- 4- 0
